G.C.B. 38 3-41-3

108: TRAFFIC CIRCUSES:- We recommend that one way traffic circuses be construced at all junctions of important roads. These circles are to be of a minimum diameter of 200 ft. the traffic island being at least 75 ft. diameter with 33 ft. wide carriage-way and 25 ft. wide foot paths. No shop and residential frontages should be permitted into these circuses.

traffic islands being at least
75 feet diameter with 33 feet
wide carriage-way and
25 feet wide foot-paths.
No shop and residential frontages
should be permitted into these
circuses".

The Commr., C.C.B. is requested to implement
the recommendation of the Committee by
having a programme for 3 to 4 years.
Preference should be given to the works proposed for the execution
of the programme prepared for the
improvements proposed for
execution based on the urgency
and importance of each work
consistently with the availability
of finances during each year.
